MEMORIAL TREE WALK

Thank you for your interest in the Village of Channahon's Memorial Tree Walk. The Village has set aside the northeast corner of the Village Hall property for a Memorial Tree Walk. In addition to providing the beauty, cooling, and air purifying benefits of trees, the walk has been established for two main purposes.

PURPOSE

Provide an opportunity to memorialize family and friends by planting a tree in their memory. Each tree will be marked by a plaque indicating the type of tree, the person in whose memory the tree was planted and by whom. This then becomes a living tribute which will last for generations.

Provide a place for residents to stroll down shaded paths and observe the trees, and their growth habits, known to do well in our area. As the trees mature, we will all have the opportunity to enjoy Channahon's very own arboretum.

TREE CHOICE

There are 29 species of trees from which to choose. Each variety of tree has been designated for a planting site along the walk to ensure the best light and water standards for that species.

Pricing of a tree varies by the species of tree selected, the market conditions at the time of its purchase, and will include planting and the plaque. Trees purchased for the walk will be a minimum of 2 inches in diameter.

PLANTING & TREE CARE

Village staff will arrange for the purchase, planting, maintenance and care of your selected tree, along with placement of the plaque.

Channahon anticipates that we will all take the opportunity to enjoy a stroll through the shaded paths created by these trees and be thankful for those who have chosen to remember their loved ones through a gift of nature.

Questions regarding the tree walk can be directed to the Village Hall at (815) 467-6644.

The Village of Channahon

is offering a program

to anyone who would

like to purchase a tree

in memory of someone.

Phase I is to be

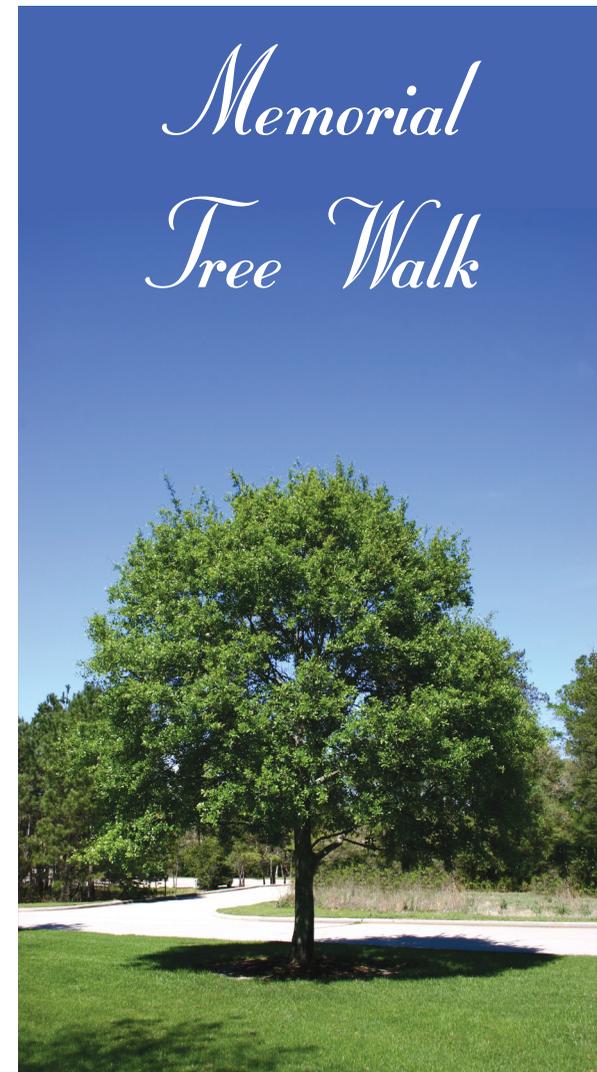

installed by

May, 2011. Order

now to get the

tree and location

of your choice.
